## PERSONAL SUMMARY

Dynamic IT Specialist with a proven track record at Sentra Layanan Universitas Terbuka Tana Toraja, excelling in full-stack development and IT infrastructure management. Adept at troubleshooting and fostering collaboration, I enhance technology operations and empower teams through engaging training sessions, driving innovation and efficiency in every project.

---

## AREAS OF EXPERTISE

- Computer skills and programming
- Full-stack development
- IT infrastructure management
- IT troubleshooting
- Graphic design

---

## EXPERIENCES

### SENTRA LAYANAN UNIVERSITAS TERBUKA TANA TORAJA

Tana Toraja - Sulawesi Selatan, Indonesia

#### IT Specialist

08/2019 to 09/2025

- Managed and maintained IT infrastructure, including computers, projectors, and networking equipment.
- Developed, maintained, and optimized internal and external websites as a full-stack web developer.
- Handled student data management and registration processes through Universitas Terbuka online system.
- Designed digital and print materials to support institutional branding and communication efforts.
- Provided comprehensive IT support across departments to ensure seamless technology operations.
- Troubleshot technical issues and implemented long-term solutions to prevent recurrence.
- Conducted training sessions for staff on new technologies and software applications.
- Installed operating systems, applications, patches, and updates as necessary.

### JITU KREASI UTAMA

#### Instructor

04/2019 to 08/2019

- Coached junior developers in coding best practices and project workflows.
- Guided junior web developers from zero experience to creating functional, styled web pages.
- Provided hands-on instruction in front-end and back-end fundamentals, including HTML, CSS, and JavaScript.
- Introduced Node.js and modern web development techniques to enhance learning.
- Designed practical projects to develop coding proficiency and problem-solving abilities.
- Fostered a collaborative learning environment to boost technical confidence and teamwork.

### NONE

Makassar - Sulawesi Selatan, Indonesia

#### Freelancer

08/2017 to 02/2019

- Delivered professional IT maintenance and repair services, managing hardware, software, and network troubleshooting with precision and reliability.

### EHIME UNIVERSITY

Matsuyama, Ehime Prefecture

#### Intern

09/2016 to 11/2016

- Conducted comprehensive research on image processing techniques to enhance project outcomes.
- Analyzed existing methodologies to identify areas for improvement and innovation.
- Collaborated with cross-functional teams to integrate image processing solutions across projects.
- Presented findings and recommendations to stakeholders to drive informed decision-making.

---

## EDUCATION

- [instagram.com/stevenarif\\_](https://www.instagram.com/stevenarif_)

---

## TRAINING

---

- **Motion Graphic Training, BDI Denpasar** —learned motion graphics with Cinema 4D, specializing in 3D animation and design principles. Gained understanding of how motion graphics work, and developed the ability to create dynamic visual animations (*Nov 30, 2017*)
- **3D Character Setup Training, BDI Denpasar** — studied the rigging process and applied it to various 3D models, including humans, animals, and robots (*Feb 1, 2019*)

---

## SUMMARY - ABOUT ME

---

I'm passionate about technology and the creative process behind it. With experience in IT and full-stack web development, I enjoy exploring new tools and improving systems through code. I genuinely love the vibe of coding — turning ideas into real applications and web apps is something I never get tired of. I'm a fast learner, constantly experimenting with my computer, designing, or building something new while listening to music. For me, technology is a blend of logic, creativity, and endless curiosity.
